## Standard Batteries

The following batteries ship as standard equipment with Hytera handheld PoC radios.

**PNC380S**

**PNC360S**

**PNC560/PNC560S**

<b>Lithium Polymer Batteries</b>		<p><b>BP4008</b></p> <p>4000 mAh lithium polymer smart battery lasts 24 hours in the PNC380S and lasts up to 48 hours on the PNC360S.</p>
		<p><b>BP4901</b></p> <p>5040 mAh lithium polymer smart battery lasts up to 18 hours.</p>

- The latest generation of Lithium Polymer batteries.
- Rapid charging to minimize downtime.
- Long operational life supports 500+ charging cycles.
- Durable and rugged with resistance to water and dust.
- Lightweight and compact for smaller radios that are easy to carry.

**IMPORTANT NOTICE**  
It is recommended to replace batteries every two years for optimal performance.

## Optional Chargers

<p><b>MCL35-2</b> PNC380S Multi-Unit Charger</p>	<p><b>CH20L19</b> PNC560 / PNC560S Single Unit Charger</p>
	
<p>6-slot multi-unit desktop charger for Hytera PNC380S PoC radios. It simultaneously charges 6 radios and 6 separate batteries to enable convenient and space saving radio charging for multiple users. Input: 12 VDC, 7 A; Charging current: 1400 mA per slot. Includes power adapter.</p> <p>Multi-unit chargers are not available for the PNC360S or PNC560/PNC560S.</p>	<p>Charges a PNC560/PNC560S radio and a BP4901 battery simultaneously. Input 5VDC 2A; Charging current: 3000mAh for the radio slot, 2000 mAh for the battery slot. Requires a Power Adapter and USB to USB Type-C Charging Cable (sold separately).</p>

# PoC Handheld Radio Accessories

These audio accessories are compatible with all Hytera handheld PoC Radios: PNC360S, PNC380S, PNC560, and PNC560S.

## All-In-One Wired Audio Accessories

One-piece wired audio accessories provide a streamlined, all-in-one solution for reliable and discreet communication. These durable and comfortable audio accessories integrate the earpiece, microphone, and Push-to-Talk (PTT) functionality into a compact unit, securely connecting to the radio with a 3.5mm jack connector.

<p><b>EHS26R</b> C-Style Earpiece for Right Ear with PTT and Microphone</p>		<p>C-style earpiece hooks securely behind the right ear, and the ergonomic earpiece sits just outside the ear canal for comfortable use. Includes PTT button and microphone with a clip that keeps the microphone firmly in place. The EHS26R is rugged and IP54 rated for durability.</p>
<p><b>EHS30</b> C-Style Earpiece with PTT and Microphone</p>		<p>C-style hook audio accessory fits securely behind the ear, with an ergonomic earpiece that rests just outside the ear canal. The detachable silicone rubber tip swivels for left or right-ear use, and both long and short earpieces are included to suit individual preferences. Includes PTT button and microphone with a clip that keeps the microphone firmly in place.</p>
<p><b>EAS07</b> Acoustic Tube Earpiece with PTT and Microphone</p>		<p>High-performance surveillance earpiece featuring a transparent acoustic tube earpiece. Designed for all-day wear, its soft silicone earbud provides exceptional comfort, while the transparent acoustic tube discreetly delivers clear audio, making it perfect for covert surveillance applications. Includes PTT button and microphone with a clip that keeps the microphone firmly in place.</p>

## Wireless Audio Accessories

Cut the cord with Bluetooth wireless accessories that provide untethered connectivity and eliminate the need for cables that can snag and get tangled. Hytera wireless audio accessories provide fast pairing for smooth audio performance, and tactical convenience with remote PTT buttons.

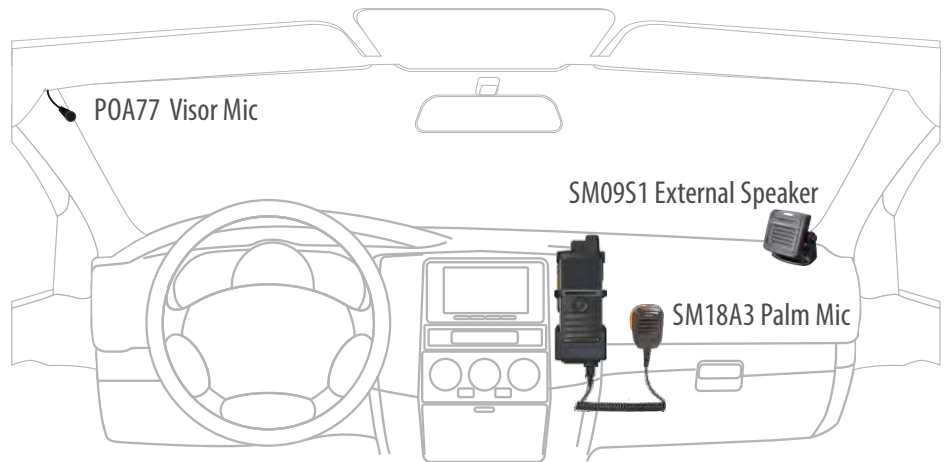

<p><b>SM27W2</b> Remote Speaker Microphone</p>		<p>Wireless remote speaker microphone with digital noise cancellation, 2.5W speaker, and emergency button. Engineered for professionals who demand high-performance, hands-free communication in the field or on the road, the SM27W2 features a built-in swivel belt clip. The intuitive controls include volume and three programmable buttons for custom functionality. It is IP67-rated and designed for harsh and unpredictable conditions. The integrated 1100 mAh battery delivers over 20 hours of operation. Includes USB charging cable.</p>
<p><b>EHW08</b> Wireless Earpiece with PTT Button and Microphone</p>		<p>Wireless earpiece with an omnidirectional noise-canceling boom microphone for exceptional audio clarity. Ergonomically designed to comfortably fit the left or right ear, this lightweight earpiece remains secure and comfortable for all-day wear. A dedicated Push-to-Talk (PTT) button and volume adjustment rocker enable effortless one-handed operation. The integrated battery supports up to 5 hours of continuous talk time and 17 hours of standby capability after just a 2.5-hour charge. Includes USB charging cable.</p>
<p><b>POA121</b> Wireless PTT Ring</p>		<p>Bluetooth wireless Push-to-Talk Ring enables intuitive, fingertip control for PTT calling and changing channels. It is IP67-rated for dust and water resistance, making it ideal for challenging work environments. Its powerful battery provides up to 100 hours of usage, and includes a custom USB charging cable for rapid recharging.</p>

## PNC380S Car Kit

The **CK10 Car Kit** is a rugged vehicle mounting assembly that enables the PNC380S to be installed on a vehicle dashboard and comply with DOT safety requirements. The Car Kit allows the PNC380S to be easily removed for handheld job-site communications. It features a locking bracket, an on/off power button, and ports for an external speaker, microphones, and other accessories. The Car Kit also functions as a docking charger for the PNC380S. It includes locking kit and key, dash-mounting hardware, and two-wire DC power cable.

<b>SM18A3</b> Handheld Microphone	<b>POA77</b> Visor Microphone	<b>SM09S1</b> External Speaker
		
IP54-rated handheld microphone with PTT button and emergency key, 6-foot coiled cable and 10-Pin aviation connector. Includes mounting clip and hardware.	Highly sensitive microphone for installation on visor or other location in vehicles, with 11.5-foot cable and 3.5mm jack.	External Speaker with 15W output for loud vehicles. Includes an adjustable mounting bracket, 6-foot cable, and a 4-Pin connector.

## PNC560 and PNC560S Protective Carrying Case

**POA27**  
Protective Carrying Case

**BC39**  
Belt Clip

The **POA27** Protective Carrying Case provides convenient carrying options for PNC560 and PNC560S PoC smart computers.

It features liquid silicone technology and padding inside the case that provides a firm grip on the device and cushioning to prevent impact damage.

The POA27 comes standard with a wrist strap that secures the device to the hand or wrist. This is especially convenient when using the PNC560 with the built-in infrared scanner as an inventory or barcode scanning device.

The wrist strap can be removed and replaced with the **BC39** swivel belt clip to attach the device to a belt or vest.

# PoC Mobile Radio Accessories

## Standard MNC360 Accessories

The following standard accessories ship with Hytera MNC360 PoC mobile radio.

<b>PWC34</b> Power Cord	<b>BRK33</b> Mounting Bracket	<b>GPS04</b> GPS Antenna	<b>AN1700W01</b> LTE Antenna	<b>SM16A1</b> Palm Microphone
				
<p>10' power cord, red/black. Includes fuse.</p>	<p>Vehicle installation kit with mounting bracket and hardware. Enables mounting the MNC360 on a horizontal or vertical surface.</p>	<p>GPS antenna with 10' cable that provides GPS location tracking of MNC360 mobile radios.</p>	<p>Two 700-270 MHz LTE paddle antennas attach to the back of the radio.</p>	<p>Remote handheld speaker and microphone and emergency call button. Includes 6' coiled cord with 10-Pin aviation clip connector and dash-mount clip hardware.</p>

## MNC360 Audio Accessories

Hytera DMR mobile radio audio accessories provide enhanced audio quality, and enable safe and efficient communications.

<b>EHW08</b> Wireless Earpiece with PTT Button and Microphone		<p>Wireless earpiece with an omnidirectional noise-canceling boom microphone for exceptional audio quality and clarity. Ergonomically designed to comfortably fit the left or right ear, this lightweight earpiece remains secure and comfortable for all-day wear. A dedicated Push-to-Talk (PTT) button and volume adjustment rocker enable effortless one-handed operation. The integrated battery supports up to 5 hours of continuous talk time and 17 hours of standby capability after just a 2.5-hour charge. Includes USB charging cable.</p>
<b>SM09C1</b> External Speaker		<p>External amplified speaker that delivers powerful, distortion-free sound with 15 Watt output for clear communication in loud vehicles. Installation flexibility is enhanced by a 6' cable and an adjustable mounting bracket, allowing secure attachment to both horizontal and vertical surfaces for ideal speaker positioning.</p>

# PoC Mobile Radio Accessories

## Desktop Base Station Accessories

Hytera MNC360 PoC mobile radios can be deployed as desktop mobile base stations for dispatching calls from a central location. The base station consists of the mobile radio, an **SEC1223** power supply, and a handheld microphone, or the **SM10A1** desktop microphone.

<p><b>SEC1223</b> Power Supply</p>		<p>Desktop power supply for MNC360 Mobile Radio. 120VAC, Output 13.8VDC, 23 Amps.</p>
<p><b>SM10A1</b> Desktop Microphone</p>		<p>Desktop microphone with 10-Pin aviation connector designed for dispatch environments requiring secure mounting, and enhanced audio clarity. It features an oversized PTT button, lockable monitor key for hands-free channel monitoring, all built into a weighted desktop chassis with anti-slip base.</p>

## Hytera PoC Protection Plan

The Hytera PoC Protection Plan ensures long-term performance and reliability for your PoC devices, delivering priority service and comprehensive support to keep your workforce connected and productive. The Hytera PoC Protection Plan covers repairs for one accidental damage incident within two years of purchase. Must be purchased at the time of initial purchase of the PoC radio.

Contact your Authorized Hytera PoC Dealer for details and pricing.
